

## Roger Lorenz RIP

09 April 2013

Last Updated 09 April 2013

The sad news has just been announced that Roger Lorenz has passed away.

Although himself and Stef returned to England on their boat "Neptune" in 2003, Roger was there with us at the launch of the HBA . Always there for us with advice, he will be sadly missed. Our thoughts are with Stef and family at this time.
